

LCLD Planning Committee
Minutes April 5 meeting

The Chair distributed a handout summarizing issues and concerns raised about the proposed new delivery system involving tiers of service and a flex-staffing model. Attendees pointed out this plan was an implementation idea and suggested the committee focus first on the Mission Statement. Patrons, staff and committee members raised additional issues and concerns and asked for clarifications. A request was made to post committee minutes on the web site. Patrons reiterated their need for a plan that provides stability. The Director excused herself from further meetings but will be available to answer professional questions. The next meeting and hopefully the last will be Wednesday, May 3, at 3:30 in the Boardroom. The committee will work on goals and objectives and the final wording of the total Strategic Plan.
